### WOMEN EMPOWERMENT CELL

#### **Report on the Program Conducted by Women Empowerment Cell in Association with the Physics Department on the International Day of Women and Girls in Science**

The Women Empowerment Cell, in collaboration with the Physics Department, organized a special program to celebrate the International Day of Women and Girls in Science. The event aimed to highlight the achievements of women in science, encourage young girls to pursue careers in STEM, and promote gender equality in scientific fields.

Students had the opportunity to interact with distinguished women professionals in science, ask questions, and seek guidance on career paths in STEM.

The program successfully created awareness about the importance of gender equality in science and motivated young girls to pursue scientific careers. The enthusiastic participation of students, faculty, and guest speakers made the event highly impactful. The Women Empowerment Cell and the Physics Department reiterated their commitment to supporting women in STEM and pledged to continue organizing similar initiatives in the future.
